Shredding capacity up to	65 sheets
Speed (yar/min.)	About 1.21/6.38
Standard duty time	Continuous
Voltage	120V
Power consumption	720W
Dimensions (inches)	W20" x D21.6" x H34"
Weight (pounds)	189.2lbs

Security

CROSS CUT

It is achieved by two kinds of cross-cut cutters.

High Level of confidentiality is ensured by small cross-cut shred size. Small-size shredded paper allows for a large storage volume.

FOR SAFE USE –

Please read the manual before using the shredder and use it properly. Please use the shredder with the right electric current and voltage. Ask your local dealer for more details concerning product performance, specifications and conditions of use

Safety

Auto Start & Stop

Automatically rotates the cutters when feeds papers. In about 10 sec. after complete feed, automatically stops processing.

Auto Power Off

When the motor temperature increases, the power is automatically shut off.

Auto Overflow Stop

When the waste bin is full, cutting action automatically stops.

Cabinet Door Switch

When the door is opened, the cutting action automatically stops.

Auto Reverse

When the paper is fed to over capacity, the cutters automatically reverse their rotation and the cutting action stops.

Breaker

When an overcurrent continues for a specified amount of time, the power is automatically shut off to protect the motor.

Enlargeable Throat

When you want to pull out the paper in auto reverse mode, the paper-jam flapper automatically opens wide.

Auto Power Save

After continuous operation for a specified amount of time, the power is automatically turned off to stop cutting action.
