

MS SecureShred

A Leader In Document & Data Destruction Equipment

V126 CC

Your First Line of

DEFENSE

High Security

User friendly, industry leading cross cutting technology allows users to thoroughly destroy documents with ease.

Safety

This new generation of innovative safety features ensures the document and data destruction process occurs seamlessly.

The cost effective answer to the document and data destruction demands of today's office environment.

Model	V126 CC
Feeding width	10.4"
Shred size (inches)	0.156" x 1.2"
Shred type	Cross cut
Shredding capacity up to	14 sheets
Speed (yar/min.)	About 7.7
Standard duty time	120min.
Voltage	120V
Power consumption	375W
Dimensions (inches)	W24" x D10.4" x H26"
Weight (pounds)	68.2lbs

Security

CROSS CUT

It is achieved by two kinds of cross-cut cutters.

High Level of confidentiality is ensured by small cross-cut shred size. Small-size shredded paper allows for a large storage volume.

FOR SAFE USE –

Please read the manual before using the shredder and use it properly. Please use the shredder with the right electric current and voltage. Ask your local dealer for more details concerning product performance, specifications and conditions of use

Safety

Auto Start & Stop

Automatically rotates the cutters when feeds papers. In about 10 sec. after complete feed, automatically stops processing.

Auto Power Off

When the motor temperature increases, the power is automatically shut off.

Auto Overflow Stop

When the waste bin is full, cutting action automatically stops.

Cabinet Door Switch

When the door is opened, the cutting action automatically stops.
